HQ AIA/DO (1)

1. Mission. The 690th Information Operations Group (690 IOG):

1.1. Conducts information operations (IO) to support the Air Force, commander in chiefs (CINC) and other Department of Defense (DoD) agencies during peacetime, contingency, and wartime operations.

1.2. Provides communications and computer services to support HQ Air Intelligence Agency's (AIA) daily, contingency, and wartime operations.

1.3. Provides IO and command, control, communications, computer and intelligence (C4I) systems technical support and services to AIA and its subordinate units, national agencies, DoD agencies, and operational commanders worldwide.

2. Command. The 690 IOG is located at Kelly AFB TX and is a field operating agency (FOA) of the HQ AIA Directorate of Operations. AIA is a FOA subordinate to the Director of Intelligence, Surveillance and Reconnaissance, HQ US Air Force.

3. Responsibilities. The 690 IOG:

3.1. Operates the Air Force Information Operations Center.

Operates the Air Force Information Operations Center.

3.2. Produces tailored air intelligence products and services for decision makers, commanders, and operators.

- 3.3. Researches, analyzes, and integrates intelligence information in response to requests for information from intelligence consumers.
- 3.4. Provides US Air Force Information Warfare Indications and Warning indicators to decision makers and the appropriate national intelligence agencies.
- 3.5. Operates and maintains C4I systems supporting HQ AIA.
- 3.6. Operates Air Force's second largest printing plant supporting classified printing production.
- 3.7. Provides professional photography, videography, and graphics art services to AIA.
- 3.8. Conducts security certification and accreditation of classified Air Force communications and computer systems around the world as delegated by the Director, National Security Agency (NSA); the Director, Defense Intelligence Agency (DIA); and the Commander, AIA.
- 3.9. Designs, develops, and maintains applications and database software for AIA computer systems.
- 3.10. Develops and manages system-level integration plans.
- 3.11. Develops and implements test activities for C4I systems and joint interoperability.
- 3.12. Provides computer and network technical engineering services to AIA and its subordinate units.

MORGAN M. BECK
Director of Plans and Requirements
